What is a demand responsive service

A demand responsive service does not run to a fixed route or at fixed times rather the route and times can vary according to who is travelling on the day. The service can make small diversions to pick up and set down passengers in order to use this service

This flexibility means that you need to book your travel in advance and be aware that the pick up time is an estimate and could be up to 10 minutes earlier or 10 minutes later than given when the booking is taken. The service can pick you up from your home.

How to book your travel

Ring little red bus on 01423 526655.

Bookings may be made up between 0830 and 1700 on a Monday to Friday and up to 2 hours before travel but a longer time is preferable. Please remember that your travel must be pre-booked
