

CT8 – Skipton and Craven Action for Disability (SCAD)

SCAD provides an accessible transport service for individuals and groups.

We now have 5 vehicles based in Skipton. All are fully wheelchair accessible.

The aim of the service is to enable people with disabilities to travel independently to places where they wish to go.

Currently passengers use us to travel, for example, to evening classes, shopping centres, Family and friends, hospitals, doctors and dentists, and leisure destinations, such as coastal resorts.

Our drivers are all trained to meet the standards required by MiDAS (Minibus Driver Awareness Scheme to ensure that you can travel in safety).

To take advantage of this service you need to be a registered member of SCAD.

Please call us on 01756 701005 or email us at info@scad.eclipse.co.uk for an application form.
